

ESB Science Blast 2025

Feedback from Judge

Date: 20-05-2025 Stand: 24
Judge(s): JUNAD AFZAL
Project Title: What is Electricity?
School Name: Scoil na mBuachaillí

Judge's Feedback:

Scientific Method:

It was pleasure to see the scientific approach adopted. The use of tools, materials to show the experiment was truly impressive. The presentation on the display was comprehensive and showing the entire concept. Enjoyed the hand made drawing and pictures. Quite amazed to learn the use of coding to show energy use. JD

Critical Thinking:

Surely, the outstanding work by the group. The way they have used different tools to showcase experiment was impressive. Even they changed plans to make it work.

Creativity:

They knew what they were presenting and technique used to show Electricity types was very interesting. The use of simple circuit and the symbols on the tools proved the creativity part and in depth knowledge.

Collaboration:

The friendly and supportive environment was evident. The fourth and third classes collaborated for this experiment for 3-4 weeks. Truly impressive team work. Congratulations to the teachers to organize all this.

Communication:

Overall very satisfactory and impressive presentation. They were organized and distributed roles quite well. The positive energy and intent was visible.

Additional Comments:

Impressive and outstanding work. The true depiction of team work and creativity. The approach and preparation was second to none. The use of experiment and coding was the highlight. Best wishes to students and teachers.
